SAMSANGAN 2016 17

SAMSANGAN

Sinks & Bathrooms

2016-17

Creativity allows us to invent completely unseen items, where abstractions of reality can lead to the satisfaction of needs and wishes. Imagination transforms routine and changes it into an idealist form to obtain something unique

2016-17

- Once again Samsangan invests in innovation and development -

BACK GROUND

SAMSANGAN COMPANY

Since 2008, the Iranian company of **Samsangan** has made a name for itself in the Middle East market with its design and manufacturing of bathroom furnishing. A company that continuously develops ideas, Samsangan is recognized for its ability to innovation, its continuous international research of materials and design elements, and its investments in technology and creativity.

The company Specialization began with commercial and home interior design, 3D partitions, kitchen counter, vacuum forming, etc. and has come to embrace the entire living space, as the result of a strong collaboration with major designers.

www.samsangan.com

Quality and Innovation

BATH COLLECTION MADE BY SAMSANGAN

Samsangan has commenced manufacturing of decorative productions by means of its advanced technical knowledge of professional designer team, creating a wide range of highly-practical services to upgrade and facilitate the interior designers and architectures profession in related industry.

The products unique versatility has allowed the developments of models designed for those seeking something different whilst adapting to the market needs.

The line of kitchen/bathroom sinks comprises a wide and interesting range of different models. You can choose different shapes and bowl sizes, number of the bowls and even between various designs of drainer surface. Solid surface sinks, bathtubs and counter tubs are made of high quality composite material Corian. Due to the careful processing of the material, the surface of our products is smooth, which allows easy cleaning.

Vanity tops, bathroom sinks and bathtubs made with Corian gives your home bath a premium high-end-look that is both warm and inviting, but this exquisite-looking surfaces are also non-porous, easy to clean, require no sealants and with proper cleaning do not support the growth of bacteria, mold and mildew.

The modern bathroom sinks are made of Solid Surface

Thanks to its unique look, its surface resistant to water and its pleasant feel, solid surface is perfectly suited for use in bathrooms. Its non-porous surface makes the material extremely hygienic and easy to clean.

Solid surface has a wide range of sinks and washbasins, further expanded at any time with special tailor-made constructions. Everything is possible. Even complex furniture bath in which the material develops harmoniously from the sink to wall cladding.

The differing shades and colors sensations are attractive options of design and functionality and are adaptable to any architectural project.

Le tonalità differenti e le sensazioni dei colori sono opzioni interessanti di design e funzionalità e sono adattabili a qualsiasi progetto architettonico.

> **Nature** has been and will be an important source of inspiration when we **create** our products, compiling and adapting **natural** forms to make them participants of our daily routine

➤ Nowadays **Samsangan** means superior industrial quality, project, technology and high supplementary production in order to make, not only bathroom products, but also to develop an integrated system which **matches design**, and environment with the global lifestyle. Knowing that the foundation of a successful product, besides **style** and **design**, is its intrinsic quality, has brought Samsangan to use only the first-rate materials today available on the market and, above all, producing wide range of home furniture.

> A concept of **elegance** which is subtle and absolutely chic, articulated over time with continuity and sensitivity, the result of the meticulous balance between the past, with the recovery of **classical motifs**, and the near future. At the same time classic and provocative, the matching of the essential shades of the two colors par excellence, is creating a combination as simple as extremely elegant in a minimal clear effect and set against old and **modern times**.

> Design is part of our **life**, in the things we do and say every day. We are surrounded and we live in a world of design that grows, changes, transforms and accompanies us. For this reason, **Samsangan** proposes the most dynamic innovations, but above all unites ideas and cultures, putting the spotlight on **beauty**, irony and functionality that can be achieved through design. As always, the bathroom comes into play because it is the newest and most interesting form of design; human design decorates each environment **differently** from one part of the world to the other. Each day Samsangan research team experiments, compares and defines new creative and technical methods for using **Corian**. The work team, composed of professionals, aims at overcoming the preconceptions connected to the material, proposing new uses for the bathroom by elevating its creative content and design.

> **Super modern**, bright and clean: in this environment, there is an ethic of total tranquility. The chaos of the **metropolis** is far away and the house is a white casing that defines an oasis dedicated to the care of the body. Here architecture, furnishings and décor pursue an aesthetic quality, giving an atmosphere that conveys vitality, good humor and a sparkling contemporary energy. Everything tells of the desire to get away from the stress of the big city, relaxing in its purest form.

> A collection **showing** a vision of the contemporary bathroom, where functionality and aesthetic are in **perfect harmony**. The objects preserve the shapes of memory, quote the past and at the same time offer a space age design interpretation. The **gold** and **white** contrast, realized in the sophisticated shiny varnished textures, goes with neat and rigorous shapes that suggest a desire for simplicity and clearness.

> A **bright room**, marked by geometric cuts and minimal beauty, that has a close connection to nature. The **lifestyle** is essential and deeply linked to nature. Who lives here, loves to meditate and look for relax. The faucets' lines in the bathroom reflect the tradition, that combines environmentally **friendly design** and **high quality**, both connected to an authentic simplicity that is always over the trends.

> **Samsangan** new series, ideal for both big and small bathrooms, to live the moment of relax in the city or in the country with close contact with nature

> Design and **luxury** for endless possibility of customization. An area entirely dedicated to **relaxation** and well-being. The main feature, **white Corian**, gives the room brightness and preciousness. A sophisticated, minimal luxury, where cold bright tones guarantee mental well-being. The light color equipment, increase the feeling of being in a perfect place.
